Directions

You will need one clear sheet protector (top opening), scissors

Print first two pages on card stock, 8 1/5 x 11. If you use two different colors it is easier to read. Make sure the pages are printed straight.

Cut the bottom off the sheet protector so it is open at the top and bottom. Cut out the thumb tabs if desired.

Cut out the rectangle on the Easy Guide page that says 'Cut this box out'.

Place the Easy Guide page on top, the list page behind it, and place both in the sheet protector. Slide the back page (the list) to find a specific activity.
